From September 27 to November 10, 2020, during the 44-day Patriotic War, there was no one who showed, presented, created the image of the Commander-in-Chief more beautifully, privately, eternally than the Supreme Commander himself in his speeches to the society, the nation and the world; both in English, Arabic, French, German, Spanish, Italian, Turkish and Russian languages, World and Nation. "He who interprets the essence of not always timely, rather complex events, tense, hot, protracted (and full of ideological passions) processes with great analytical talent (and intellect), and most importantly, emerges as a brilliant expression of reflecting the will of the Azerbaijani people in all detail. this great Word..." This Word "was used by a Leader who implemented our historical victory in a project power that no one could imagine - the Commander-in-Chief of our Word!." (Nizami Jafarov, "The Commander-in-Chief of our Word" - İQ, November 14, 2020) In this period, the nation sees and recognizes its leader as proud as ever: "The proud leader image of Supreme Commander-in-Chief İlham Aliyev, who always upholds and protects his independence mentality and status, today in the eyes of the world, became one of the main symbols that gave real and practical content to his goals and position .." (Elnara Akimova, "Only for the sake of Karabakh". - AK, October 3, 2020)
