Fuzuli top and Vagif's beginning

Mahira Guliyeva. Fuzuli top and Vagif's beginning" Science and Education", Baku, 2021, 224 pages.

In the book, based on Mir Jalal's recommendation that "...in order to determine the artistic features of the poetic language of the great poet, the wonderful power of influence, in-depth work should be done on the poetics of each of his works", - some fine points of Fuzuli's literature and the specific aspects of our national literature Fuzulisayag finds new poetic tools.

Although it is our main task to follow the intersecting and non-intersecting moments in the works of both poets, since a new era in the history of poetry began with Vagif after the Fuzuli school, the most important thing is that since the work was written during the 44-day war, Vagif's invaluable services in guiding and strengthening the foreign policy of the Karabakh Khanate are not only from the poet's creativity, we set ourselves the goal of talking about his life and services in Karabakh. It should be noted that the naming of the book "Fuzuli peak and Vagif beginning" was decided with the consent of academician Isa Habibbeyli, vice president of ANAS, scientific advisor of the publication.

At the end of the book, we have added an article called "Life of Mammad Araz Dadashzade", which praises the literary process of the 18th century, sheds light on the importance of the literature of this period, and writes a monograph on Molla Panah Vagif at the intersection of historical facts and literature.
