

Qarabağ Azərbaycandır!

Academician Isa Habibbayli

Muhammad Fuzuli's soul returned to his native land

The occurrence of further large-scale destruction in buildings inhabited by civilians and civilians in the city of Ganja once again presents to the whole world that the Armenian state is an aggressor, usurper, terrorist, and criminal state. The fact that the Azerbaijani Army does not fire on the civilian population on the enemy's side, but only deals with usurpers on the battlefields, is the position of our Commander-in-Chief and the reality of the humanist face of the Azerbaijani people. The liberation of Fuzuli region from occupation along with our lands that have been taken back from the enemy is a historical victory of the Azerbaijan Army. The capture of Fuzuli district center and its villages from the enemy and returned to our people is an important military and political event that decided the fate of the war for Nagorno-Karabakh. With the liberation of the lands of Fuzuli, the soul of the great Azerbaijani poet Muhammad Fuzuli, whose grave is in Karbala, and whose soul is in Karabakh, Azerbaijan, was reunited with his native land. The mountains of Shusha are clearly visible from the heights conquered by our army around Fuzuli. Love our hero army! Karabakh is Azerbaijan!
