

Armenian terrorism should be evaluated by its own name

Armenian terrorism should be evaluated by its own name. The bloody events committed by Armenian executioners in the city of Ganja in Azerbaijan are a criminal event from the legal point of view. From the point of view of international legal norms, the crimes committed by Armenia in the city of Ganja are a terrorist incident in the true sense. In general, the fact that Armenia is a terrorist state is not a new phenomenon. Throughout the 20th century, the main weapon used by Armenia to achieve its goals during the events of 1905-1907, 1918-1920, 1946-1948, and finally 1988-1990 is terrorism. The bloody crimes committed by Armenia in the territory of Nagorno-Karabakh, including in Khojaly, have only one name: Terrorism! The atrocities committed by Armenian vandals in the city of Ganja in recent days are the next continuation of Armenian terrorism. For these inhumane and bloody terrorist incidents, the prime minister of Armenia, Nikol Pashinyan and his surroundings and the gang of criminal junta officials who carried out the terrorist incident in Ganja, are primarily responsible. I believe that Pashinyan and his gang of criminals should sit on the dock before the international court and answer. The fact that the international community and the Minsk Group are indifferent to the events of Ganja, do not make an objective legal and political assessment, and do not put pressure on Armenia ultimately serves to support the terrorist state and terrorism. We firmly believe that under the leadership of the President of the Republic of Azerbaijan, our Commander-in-Chief Ilham Aliyev, the Patriotic War of our state and people will end with complete victory. I wish new victories to our honorable President and the heroic Azerbaijani army!
